READING
NOTES

01 Dividends are gross of withholding unless stated.

02 Ex-date is the first day without the right to the payment.

03 Frequencies follow issuer convention, not fiscal calendar.

04 Yield is trailing-twelve-month sum / current price.

05 DRIP (automatic reinvestment) is not enabled on this book.

Fig. 2. Four quiet lenses on the dividend stream. Heatmap intensity is bronze, deepening with larger single-day receipts. Scatter circle size reads YTD contribution.

PART IV · EDITORIAL

WHAT A DIVIDEND IS AND IS NOT

A single sentence the desk is holding in mind, and the short list of questions the dividend ledger is not equipped to settle.

A dividend is a kindness from a company to its owners — unremarkable until counted, cumulative once you do.

— PIVOXQUANT DIVIDEND DESK —

WHAT THIS DIVIDEND LEDGER CANNOT SETTLE

1. Sustainability of the issuer's payout policy across the cycle.
2. Tax treatment across qualified and non-qualified brackets.
3. Currency risk on non-USD payers.
4. Whether DRIP reinvestment is preferable for this reader.
5. The opportunity cost of yield against total return.
