PART I · FILINGS TIMELINE

THIRTY DAYS OF PAPERWORK

A stacked daily read of publicly filed insider transactions. Ink columns record acquisition days; faint-oxblood columns record disposition days.

FIG. 1 · FILINGS OBSERVED · TRAILING 30 DAYS

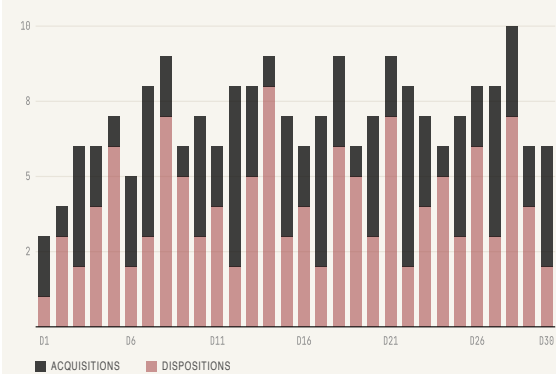

Fig. 1. Thirty days of observed Form 4 / 5 / 144 filings, stacked by reported direction. Ink records acquisitions; faint oxblood records dispositions. Both bands are drawn from the public EDGAR tape.

Across the thirty-day window, 142 filings were observed on the EDGAR tape.

The higher disposition count is the ordinary pattern of the tape, not a signal. No causal inference is claimed by this page.

10B5-1

62.4%

Share of disposition filings reported under a pre-arranged trading plan, not a spot decision.

FILING LAG

1.8d

Days between reported transaction date and EDGAR filing receipt. Form 4 requires two business days.

FORM 4 SHARE

88%

Form 4 makes up the overwhelming share; Form 5 annual true-ups and Form 144 sale notices fill the balance.

DART / KRX

4.2%

Share of observations drawn from Korean DART insider filings, merged with the EDGAR feed.

PART II · FILINGS LADDER

THE TEN FILINGS THE TAPE RECORDED

PART III · FILINGS QUAD

FOUR READINGS OF THE MONTH'S PAPERWORK

Sector distribution, the ten names with the deepest observed net-acquisition and net-disposition, and the form-type mix — four quiet lenses on the same feed.

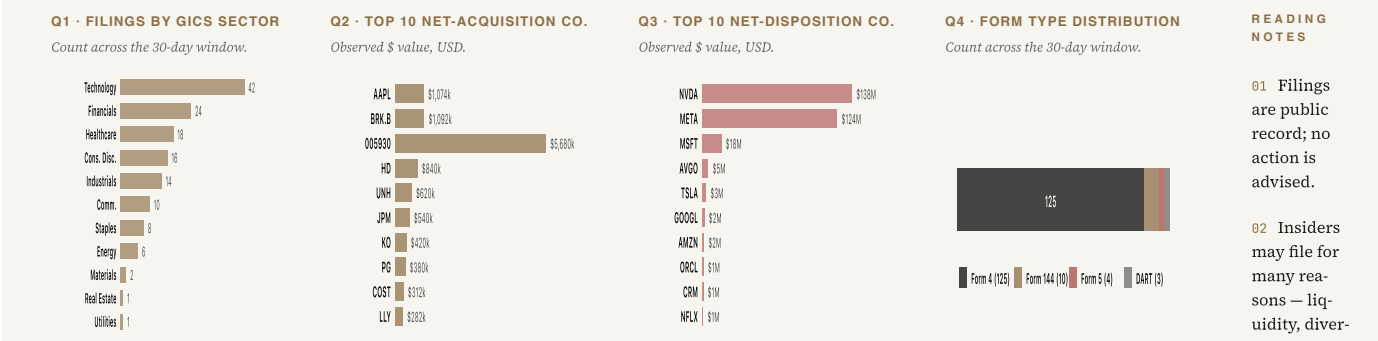

Fig. 2. Four quiet lenses on the month's insider paperwork. Bronze marks net-acquisition direction; oxblood marks net-disposition. All figures are public-record counts and values, not ranked signals.

PART IV · EDITORIAL

WHAT A MIRROR CANNOT REFLECT

A single sentence the desk is holding in mind for the month, and the short list of questions the insider feed cannot settle for its reader.

Insider activity is a confession made in public — legible, late, and only ever partial.

— PIVOXQUANT RESEARCH DESK —

WHAT THIS FEED CANNOT SETTLE

1. The true motivation behind any individual filing.

2. Whether a Rule 10b5-1 plan was amended before execution.

3. Derivative hedges or collars that may offset the observed position change.
4. The tax-year context for any particular filer.

5. Family-trust or private-foundation transactions not on the tape.
